

Pet Emergency Kit: Reptiles

Store items in a sturdy, waterproof container so they can be carried easily and keep in an accessible location

☐ Food & Water

- Two week supply of food, water and treats
 - For frozen/refrigerated food, place in a cooler with ice packs
 - Baby food or canned fruits and veggies (no added salt/sugar)
 - For feeders: food, water and an evacuation carrier/cage
- Manual can opener and spoon for canned food
- Airtight container for dry and pelleted diets
- Food & water dishes

Note: Rotate out all food and water every 2 months to maintain freshness

☐ Medication

- Copy of medication and/or specialty food prescription(s)
- A month's worth of extra medication, vitamins, supplements, etc.
- All necessary medication administration supplies
- Cooler and chemical ice packs for medication requiring refrigeration
- Sturdy plastic container to safely dispose of syringes/needles

**Note: Rotate out all vitamins/supplements every 2 months to maintain freshness.
Keep all medications in a waterproof container and replace before they expire.**
